## Our Style

**Real smiles. Real emotions. Real laughs. Real life.**

At every single portrait session we photograph, we strive to capture more than just have you look. Our goal is to tell a story ... the story of your loved ones. Who you are today, right now, in this moment. Silly three year olds are allowed (and encouraged!) to be silly. Moody teenagers are never asked to say cheese. Don't want to pose in front of the fireplace? Good, because we weren't planning on asking you to. Portraiture has come a long way in the last few years and there's nobody more excited about it than us. Whether you're just starting your family, up to your ears in peanut butter and jelly sandwiches or sending your teenagers off to college soon ... we're here to help capture the moments you'll be looking back on for a lifetime.

**So relax, ditch the matching outfits,  
be yourselves and let's have a blast!**

## Family Sessions

### **SESSION FEE: \$150**

DUE ON OR BEFORE YOUR SESSION DATE and INCLUDES:

- 1-2 hour on-location family session for up to 5 people

- Perfecting of up to 40 images from your session

- An online gallery to view your images for printing

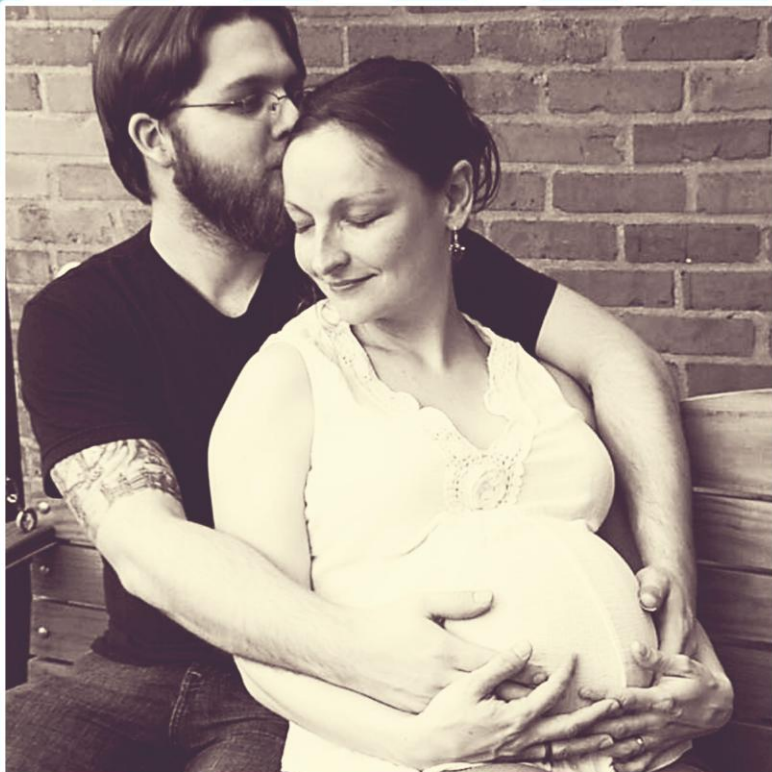

PLEASE NOTE: The session fee covers our time and talent only. It does NOT include any products, prints or digital files.

### **Session Tip:**

When picking outfits for your session, avoid being too matchy-matchy. While it may be tempting to put everyone in crisp white shirts, your photos will have more personality if you let everyone's true colors shine through. So let the kids wear something fun! When the kids are happy, life (and photo sessions) run a whole lot smoother!

## Digital Files FAQs

**Q) Can I buy the digital files from my session?**

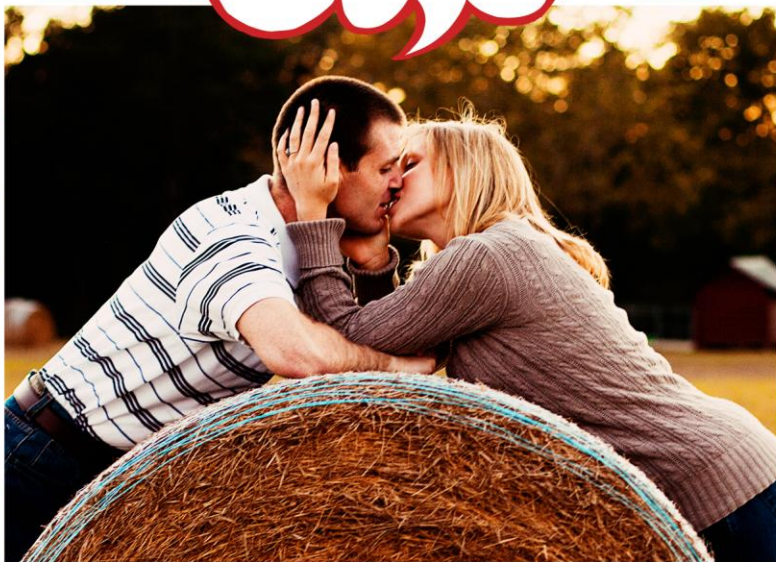

A) Absolutely! We know how important those files are to you and your family and we want to make sure you have them FOREVER! That's why we offer a high resolution photo CD from all of our sessions.

**Q) Why do I have to purchase a print package before the files are available?**

A) With so many photo printers around these days, it's easy to find a cheap place to make enlargements of your digital files. What's not so easy is finding a place that'll consistently do a GREAT job with those files. As much as we want you to have your files, we also want you to have some really nice, archival, and museum quality prints for your home!
