Our Style

Our style is a mix of photojournalism and creative portraiture...

For most of the day, we follow you around, staying out of the way, capturing your day as it's happening. We absolutely LOVE getting real smiles, real tears, real emotions and there's no amount of cheese that can recreate those real moments. We do, however, LOVE creative portraits! We love to scope out great background, find the best light and tell you to scoooooch in close for some sweet, romantic, silly, happy, amazing shots that you definitely won't find in your parent's wedding album. We don't strive to get pictures of what you look like – we strive to get pictures of who you are! Our slogan is "Photography for Happy People" because everybody is happy on their wedding day. We want your photos to show every ounce of that happiness!

Sometimes people ask us if we mind taking a few "regular" photos. Absolutely! We always take standard, posed portraits too. We just try not to take too long on those. The more time we have to capture "real" moments, the happier you'll be with your photos!

Be Modern!

High Resolution Digital Files

Want to make your own prints? Go for it! Want to upload your favorites to Facebook? Tag away! Every one of our wedding couples gets a high resolution photo DVD as part of their package. We wouldn't have it any other way. Why? Because we want you to have ALL of your photos (not just the photos you can afford!). And we want you to share your photos with family and friends around the world. So go ahead – blog and email and spread some photo love!

Digital File FAQs:

- Q) Can we really make prints anywhere we want?
A) Absolutely! We'll even give you a list of our favorite labs, local and online!
- Q) Can we still order prints from you?
A) Of course! We use an awesome professional lab that produces AMAZING prints. If you'd like to leave the printing up to us, just let us know!
- Q) Are the photos on my DVD going to be edited?
A) Yes! All the photos you receive will be color corrected and ready to print. They are NOT straight out of the camera files. What you see in your gallery is what will be on your DVD.
- Q) So does that mean I own the copyright for my photos?
A) Not exactly. What we give you is a license to print your photos anywhere, anytime. We retain copyright to all photos. Your license does not include permission to sell, modify, or enter your photos into any contests. Let us know if you have any more copyright questions!

Albums & Mini-Books

Artist Designed Albums

We LOVE designing albums so much that all our wedding collections include a credit to use towards an album purchase! Our album style is modern and fun, just like our photography. Choose from a wide variety of cover options, colors, and album sizes to create a truly unique album that perfectly matches your wedding photos and personal style. We only offer modern, lay-flat hinged albums – no more prints mounted in mats like old style books. By only using hinged albums, we are free to tell the story of your day with big photos, panoramic spreads, and creative designs. Every album we deliver is designed by an artist and one of a kind!

Accordian Mini-Books

These wallet sized mini-books are perfect for showing off up to 14 of your favorite photos. And grandma's love them too! Sure way to be oohed & ahed over (and the talk of the town)!
